PROJECTS

Plumber Service Website
HTML | CSS | Tailwind CSS | JavaScript | jQuery | Responsive Design
Developed a fully responsive, interactive plumbing service website featuring service listings, team profiles, blog integration, and call-to-action elements. Implemented layout using Tailwind CSS and added dynamic interactions using vanilla JavaScript and jQuery. Optimized for performance and user experience across devices.

Corporate Business Website
HTML | CSS | Responsive Design | Tailwind CSS | jQuary | JS
Designed and developed a professional, responsive corporate website with team profiles, client testimonials, and service sections. Used Tailwind CSS for layout and design consistency, integrating basic JavaScript for interactive elements. Built with clean code and mobile-first approach to ensure optimal performance across all devices.

Portfolio Website
HTML | Responsive Design | Tailwind CSS | JS
I designed and developed a personal portfolio website using HTML, Tailwind CSS, and JavaScript, guided entirely by my own design sense. The site is fully responsive and highlights my skills, projects, and background with a clean layout and interactive elements for an engaging user experience.
